About Tusculum:

“Tusculum – Discussion Forum on Law” Association has been in existence since about 40 years and which has set as its target a deepening of the understanding of the law. Both theoretical as well as practical topics are discussed.

More than 130 lectures and symposiums were held within this scope. It was founded in the farmers club according to the articles of Association to promote the rule of law on an International, National and European level. It is closely connected with the University of Salzburg and supported by the law firm of Berger Daichendt Grobovschek Perfeller Rechtsanwälte OG, founded 1871 by Dr. Julius Berger.

The discussions are governed, insofar as they are held internally, by “the Chatham House Rule”, so that speakers or contributions to the discussion by individuals holding an official position cannot be cited outside of this circle. This agreed confidentiality is designed to ensure that an open exchange of ideas can take place.

The Chatham House Rule

What is the Chatham House Rule?

The Chatham House Rule is used worldwide to facilitate both free speech and confidentiality at meetings.

Meetings may be held “on the record” or under “the Chatham House Rule”. In the latter case, it may be agreed with the speaker(s) that it would be conducive to free discussions that a given meeting, or part thereof, should be strictly private. When a meeting, or part thereof, is held under the Chatham House Rule, participants are free to use the information or opinions disclosed to them, subject to two conditions.

- a) Neither the identity nor the affiliation of the speakers, nor that of any other participant at that meeting may be revealed.
- b) It may not be divulged that the information was received at that meeting.
